PROTHMAN

THE COMMUNITY

Rapid City, South Dakota, is a vibrant community located on the eastern edge of the Black Hills, known for its stunning natural beauty and rich cultural history. As the

second-largest city in the state, with a population of approximately 75,000, Rapid City serves as a gateway to some of the nation's most iconic landmarks, including Mount Rushmore, Badlands National Park, and the Crazy Horse Memorial. The city boasts a blend of modern amenities and small-town charm, making it an attractive place for both residents and visitors.

Rapid City offers a high quality of life, with access to numerous outdoor recreational activities such as hiking, biking, fishing, and skiing in the nearby Black Hills. The city's vibrant downtown features a mix of local shops, restaurants, and cultural attractions, including the Dahl Arts Center and the Journey Museum. The area also has a growing economy driven by industries such as healthcare, tourism, and manufacturing, along with a strong military presence at Ellsworth Air Force Base.

With top-rated schools, a low cost of living, and a welcoming atmosphere, Rapid City is an ideal location for families, professionals, and retirees looking for a community that balances natural beauty, opportunity, and a friendly, close-knit environment.

THE POSITION

Renner Associates is seeking a talented Civil Engineer Project Manager to join their team. In this role, you will be responsible for overseeing the design, review, and management of various civil engineering projects, including site and subdivision developments, infrastructure initiatives, stormwater design, contract administration, and project management.

This role involves applying civil engineering principles and standards to execute tasks effectively, while performing routine engineering assignments using standard techniques and procedures. It includes managing administrative duties related to project management for civil and site projects, developing construction bid documentation in compliance with government and client standards, and ensuring quality control to uphold project standards. The position also entails providing guidance, training, and mentorship to team members, as well as assuming the duties of a Project Manager when necessary. All employees are compensated on an hourly basis.
