**THE COMMUNITY**

Rapid City, South Dakota, is a vibrant community located on the eastern edge of the Black Hills, known for its stunning natural beauty and rich cultural history. As the second-largest city in the state, with a population of approximately 75,000, Rapid City serves as a gateway to some of the nation's most iconic landmarks, including Mount Rushmore, Badlands National Park, and the Crazy Horse Memorial. The city boasts a blend of modern amenities and small-town charm, making it an attractive place for both residents and visitors.

Rapid City offers a high quality of life, with access to numerous outdoor recreational activities such as hiking, biking, fishing, and skiing in the nearby Black Hills. The city's vibrant downtown features a mix of local shops, restaurants, and cultural attractions, including the Dahl Arts Center and the Journey Museum. The area also has a growing economy driven by industries such as healthcare, tourism, and manufacturing, along with a strong military presence at Ellsworth Air Force Base.

With top-rated schools, a low cost of living, and a welcoming atmosphere, Rapid City is an ideal location for families, professionals, and retirees looking for a community that balances natural beauty, opportunity, and a friendly, close-knit environment.

## THE POSITION

Renner Associates is seeking a motivated and driven team member to join their field survey crew. The Survey Crew Chief with emphasis on construction staking is responsible for assisting survey staff with any survey needs, including boundary surveys and topographic mapping. This position offers opportunities to grow and manage survey projects and mentor new team members. This position's work schedule is expected to be Monday thru Friday with weekend availability when needed. Overnight travel is not required. All employees are compensated on an hourly basis.

This role involves a variety of responsibilities, including construction layout and conducting field surveys for boundaries, topography, and utilities using GPS and robotic equipment. This position also requires managing multiple projects and assignments simultaneously while meeting deadlines, and involves preparing plats, maps, and record drawings using AutoCAD Civil 3D. Additionally, the role includes the responsibility of managing and training field technicians to help advance their knowledge and skills.

## EDUCATION & EXPERIENCE

- PLS certified or the ability to obtain within six (6) months.
- Knowledge of GPS, total station and robotic equipment.
- A willingness to achieve professional registration is encouraged.
- An understanding of civil engineering and structural plan set.
- A valid Driver's license.

## COMPENSATION & BENEFITS

- **\$70,000 - \$85,000 DOE**
- 100% paid Employee Health Insurance
- 100% paid Employee Dental Insurance
- 100% paid Employee Vision Insurance
- Matching IRA Contributions
- Paid Time Off
